## IN THE SENATE

There was opposition in the Senate yesterday afternoon to House bill No. 175 which provides for the establishment of a hospital for lepers at Kalaupapa. Dickey criticized the measure on the ground that it involved a needless expense. He said that there should be no leper hospital outside Kalaupapa. Paris opposed the bill on the same grounds, and McCandless opposed an amendment making the law inoperative in the event of the establishment of a hospital by the United States government at Molokai. The amendment carried on a tie vote. The bill passed by the following vote:

Ayes—Aclit, Brown, Haystack, Hewitt, Kalama, Lane, McCandless, Woods, Isenberg—3.

Noes—Dickey, Gandall, Paris, Wilcox—4.

Absent and not voting—Bishop, Dowsett—2.

Only the chemistry of nature is employed in the manufacture of Rainier Beer. It is wholesome, invigorating and genuine.

## ANDREW'S REPLY TO THE SENATE

ANSWERS SENATOR BISHOP'S RESOLUTION OF INQUIRY ABOUT THE MATTER OF CAR PASSES.

Attorney General Andrews yesterday afternoon sent the following to the Senate in reply to the resolution introduced by Senator Bishop.

Honolulu, April 12, 1905.  
To the President and Members of the Senate of the Territory of Hawaii, Gentlemen: The resolution adopted by the Senate of the Territory of Hawaii on the 11th day of April 1905, requesting from me information as to whether first, I held or have held within ninety days past a free pass from the Honolulu Rapid Transit & Land Company, permitting me to ride free on the cars of said company; second, whether I hold such pass from any company or railroad giving me the privilege of free transportation; third, whether any of the deputies or assistants hold or have held within ninety days past, passes from or issued by the Honolulu Rapid Transit Company, was received by me this morning and in reply I would answer all there in the negative.

In order, however, that there may be no misunderstanding in this matter, I would further state that the Deputy Attorney General, the Assistant and C. A. Doyle, are special policemen connected with this department, for the purpose of assisting the business of the office, and have held special police badges, practically since their time of commission as assistant attorney generals. My reasons for wishing them to have the powers of a police officer are to facilitate the work of the office.

I understand that the Rapid Transit Company allowed all special policemen to ride on their cars without paying fare, this however, was a matter in which the persons in my office were treated no differently from any other special officer, and the privilege was never requested of the Rapid Transit Company by myself or any other person connected with my department.

I am informed that the Rapid Transit Company issued an order that certain police badges would no longer be recognized which included all in this office, such order being issued shortly after the receipt from the Superintendent of Public Works, of the letter annexed hereto.

Further in answering what I understand to be the spirit of your resolution, I would say that the suit brought by my department against the Rapid Transit Company for violation of a provision of their franchise, was brought at the request of the Superintendent of Public Works Holloway, as the result of an investigation, made by him without my knowledge, which culminated in a letter to the Rapid Transit Company also sent without my knowledge hereto attached. And as a result of their failure to act upon said letter, the Superintendent of Public Works called upon our department to bring suit, which we did, after obtaining further evidence that the franchise was still being violated in regard to the speed of the car service. In spite of the notices from the Superintendent of Public Works.

Had it been the wish of this Department to annoy and hamper the railroad fifty-eight suits, each for a hundred dollar penalty could have been brought as easily as the one which has been brought.

Further it was the idea of the Superintendent of Public Works together with myself, to bring this matter to a head while the Legislature was in session, so that, if any remedial legislation is required, it can be immediately had.

Yours respectfully,  
LORRIN ANDREWS,  
Attorney General.

## JAPANESE BEETLES ARE BAD IN HILO

WARFARE OF EXTERMINATION IS BEING CARRIED ON BY INOCULATING FUNGUS.

The prevalence of the Japanese beetle is assuming such alarming proportions as to cause householders and others interested in the preservation of plant life to begin an active crusade against the obnoxious pest. A citizen gathered from one hibiscus bush after nightfall the other evening over a hundred beetles. The ravages of the beetles' deadly work can be seen on rose bushes, palms, and plants and for the benefit of Tribune readers we print below the method adopted to destroy them.

After capturing a quantity of the beetles, place them in a soap box in the bottom of which has been deposited several inches of earth. Keep the box supplied with fresh honohono grass or hyacinth leaves in order to keep them alive.

It will soon be found that a number of the bugs have died and are covered with a grayish substance, which is the fungus growth that attacks this particular insect life. The soil in the box and the dead beetles should be thoroughly mixed, until the earth has become impregnated with the fungus. Subsequent additions of captured beetles to the box will become infected, and after three days confinement should be released. The liberated beetles will in turn infect others, until it becomes only a question of time, it is claimed, when all are exterminated. The bugs live in the ground in the day time and come out in the evening to feed upon the plants and are easily captured with the aid of a lantern.

Charles Hitchcock and Brother Matthews have been persistent in their efforts to exterminate this pest, but lately the numbers have become so great, that all persons are asked to join in the crusade and adopt the above method. It is stated that there are thousands of infected bugs already at large, and it is only necessary to capture a hundred or so to make a start in the good work. By confining the area of infection to a small box the spread of the fungus among the live beetles is more easily accomplished.—Hilo Tribune.

### FAREWELL TO FATHER ULRICH.

Fully 250 persons attended the farewell luau given to Father Ulrich at Puna, Puna, on Sunday last. Members of Father Ulrich's flock from Kalaupapa and the remotest districts of Puna came afoot or horseback, bringing chickens, fish and other delicacies of which the Hawaiians are so fond. In silent tribute of their affection for their spiritual leader and father, many of Father Ulrich's friends from Hilo and vicinity went out on the Sunday morning train and participated in the demonstration. Father Ulrich, who has been located in the Puna parish for the past six years goes now to Honolulu. One of his achievements has been the organization of an excellent orchestra of Hawaiian boys, which has been heard frequently in concerts in Puna and Hilo. Father Ulrich's departure will probably mean the disbanding of this musical organization, and otherwise his presence will be greatly missed throughout the Puna district. Father Otto of Honolulu has been assigned to look after the parish.—Hilo Tribune.

## YESTERDAY'S SESSION SLOW TO SETTLE SAMOAN CLAIMS

It was the liquor bill as amended by the Senate that was sprung on the House of Representatives this morning. The amendments, which have already been reported in the Senate proceedings were numerous and the bill's own father would have had a hard time in recognizing it. With a view to getting some sort of a bill through in time to avoid the pocket veto, Kanoho moved that the House concur in the Senate amendments.

Harris moved to defer consideration until this afternoon a motion which was seconded by Smith who said that he wished to have time to read the amendments so that he could cast an intelligent vote.

Holstein moved that the bill be referred to a conference committee, and Lilikalanai seconded the motion. Fernandez opposed the deferring of action on the matter by sending it to a conference committee, Harris having withdrawn his motion. He poured forth a torrent of Hawaiian which ranged from the sub-cellar of the bass clef to the third story front of the treble.

It was at 10:50 when a messenger from the Governor was announced and a smooth-faced youth with eye-glasses entered the hall. He was visibly nervous as he handed the message to Speaker Knudsen and fled by the side door.

The first few sentences showed that the Governor had vetoed the County Bill.

Coelho was on his feet as soon as the veto had been read in Hawaiian.

"Mr. Speaker," he said, "I move we override the veto of the Governor."

"Kokua," shouted the House.

Kanoho moved that the Governor's veto be sustained as he thought that the Governor had given excellent reasons for refusing to assent to the bill. Kalina was in favor of overriding the veto.

Kalejopu blamed the Senate for holding up the House's taxation bill which should have been passed on to the Governor for consideration with the County Bill.

Lilikalanai was for overriding the veto but Pali believed in sustaining the Governor.

Aylett made a strong speech in which he asked how long the people were going to stand being ruled with an iron hand by one man. It was time for the people to assert themselves and show the Governor that government is for the people and by the people. There was a distinct smell of dynamite bombs while he was speaking.

The previous question, moved by Cox, prevailed and Coelho closed the debate. Smith of Hilo was absent when the veto was called and the House was kept waiting while a search was made for him.

The motion to override the veto passed by 27 to 3. The three were Kanoho, Pali and Puaia.

### FLAG THE TRAIN.

When your train is flying for the open switch, and the danger signals of sleepiness, drowsiness, irritability, and general nervousness are flashed before you, flag your engine before disaster, by taking Dr. Miles' Nervine. At druggists. Money back if first bottle fails to benefit.

AFTER THREE YEARS NOTHING IS DONE TO SATISFY DEMANDS OF GERMANS.

WASHINGTON, March 11.—The negotiations between America, Great Britain and Germany, looking to a settlement of the Samoan indemnity claims, have practically come to a standstill owing to a wide difference of opinion as to the extent of damage sustained by the German subjects in the Samoan group, as a result of the joint operations by the American and British naval forces in 1900 to suppress a rebellion.

The question of the liability of America and England for the damages sustained by German plantation owners was decided by King Oscar of Sweden, in favor of the claimants in 1902, but the arbitrator did not attempt to assess individual damages, leaving these to be adjusted by negotiation. These negotiations have dragged along ever since 1902, and the principals now find themselves no nearer an agreement than at the beginning. The German claims amount to about \$65,000. The British and American negotiators insist that this sum is excessive and that \$25,000 is a good price for the property destroyed.

It is probable that it will be necessary to appoint a commission to take testimony as to the extent of the actual damage, though the smallness of the amount involved would seem to make this an unduly expensive undertaking. Meanwhile the claimants are becoming restive and are bringing pressure to bear on the German Government to secure settlement.

### HOLLOWAY STARTED ACTION

Superintendent of Public Works Holloway has written a letter to the Advertiser in which he states that the action of the attorney general in the matter of the Rapid Transit speed limit was due to investigations which the superintendent's department made, resulting in the discovery, as he states, that practically all the cars were running beyond the legal limit. He notified the company on March 23 and later asked the attorney general to proceed.

### TO BE MARRIED

The sole passenger on the schooner W. H. Marston, which arrived Saturday morning from San Francisco, was Miss Nellie Mackenzie, who came direct from Scotland to become the bride of David G. Butchard of Papakou. Mr. Butchard met his fiancée and drove her to the home of Manager John T. Mohr, where she will remain until the wedding takes place, which will occur within a few days. Mr. Butchard is timekeeper at Papakou and has a host of friends who are overwhelming him with congratulations.—Hilo Tribune.
